

Modeling Instruction Workshops!!!

Summer 2022

We believe that Modeling Instruction is the best conduit to the vision of the new (NGSS-based) Michigan Science Standards (MSS). In partnership with the American Modeling Teachers Association (AMTA) we have worked to tune and enhance the workshops so that materials are well aligned to our new standards, providing teachers with resources they can take right into their fall classes.

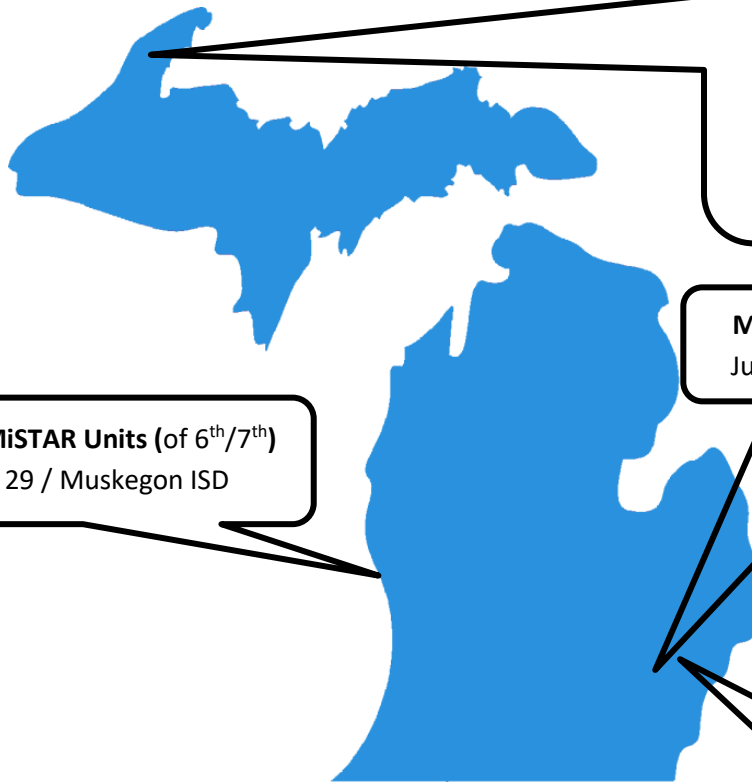

OTHER BENEFITS

- Stipends for participation (\$125 per day, hotel costs (if applicable))
- Grad credits: Madonna University (up to 6 depending on workshop duration, at \$150/credit)
- SCECH (up to 90 for full participation / possibly higher if our application to equate is accepted)
- Strong connections to a growing community of Michigan Modelers (Over 1200 so far!)
- One Year AMTA Membership for first time Modeling participants.

Application Process and Timeline: Applications are accepted through June 5th, **BUT** first application review begins in early April with announcements beginning by late April. **To apply**, visit our website:

<http://mimodelinginstruction.org>

NOTE: Workshop dates are all on WEEKDAYS.

Modeling in HS Physics
(suitable for teachers of physical science, physics AND algebra)
June 20 – July 8 (not July 4)
Houghton/Hancock

Modeling with MiSTAR Units (of 8th)
June 20 – July 8 / Novi HS (not July 3)

Modeling with MiSTAR Units (of 6th/7th)
July 11 – July 29 / Muskegon ISD

Modeling for Secondary Methods Instructors
August 8 – 10, 2022
Virtual

Modeling Mobility w/Wave
July 13 – July 22
Troy High School
