

K-8 Teachers Science/STEM Camp

Join the School of Education in the new Albertus Magnus Hall of Science at Aquinas College for “hands-on” and “minds-on” Science/STEM learning experiences! Explore strategies aligned with the Michigan Science Standards that will fit right into your K-8 classroom!

Presenter: Mike Fillman

Aquinas College Education/Science Education Adjunct, Aquinas College Student Summer Science/STEM Camp Director, and Retired Elementary & Middle School Science/STEM Teacher

Camp Highlights:

- Explore hands-on learning activities by designing, building and testing structures (toothpick bridges, roller coasters, etc.)
- Investigate Physical and Life Science strategies to integrate into your daily lessons
- Research-based & classroom-tested practices
- STEM Team-Building Activities
- STEM Network, Resources, & Lesson ideas

Camp runs June 19-23, 2023 | 9 a.m.-Noon

Cost: \$20
SCECH's available
